Professional Appointments

The Ohio State University CCAPP Postdoctoral Fellow Center for Cosmology and Astro-Particle Physics (CCAPP)	2017-present
California Institute of Technology Postdoctoral Scholar Department of Physics	2014-2017
The University of Michigan Research Fellow Department of Physics	2011-2014

Education

Stanford University Ph.D. Physics, awarded September 2011 Advisor: Risa H. Wechsler Thesis: "Precision Cosmology from Galaxy Cluster Surveys"	2005-2011
National Taiwan University B.S. Physics, awarded June 2005	2001-2005

Awards

Visiting Scholars Program Award, Universities Research Association	2017
Gabilan Stanford Graduate Fellowship, Stanford University	2008-2010
McMicking Stanford Graduate Fellowship, Stanford University	2008
Dean's Award, National Taiwan University	2005
Presidential Awards, National Taiwan University	2002-2004

Presentations

Seminar Presentations

“Sample variance in the local measurements of H_0 ” Chalk Talk, Fermilab	Oct. 2017
“Sample variance in the local measurements of H_0 ” CCAPP seminar, Ohio State University	Sept. 2017
“What does cosmic far-infrared background tell us about cosmic star-formation history?” Cosmology Seminar, Ohio State University	May 2017
“Cosmic Variance of the Hubble Constant” Postdoc Lunch Seminar Series, Caltech	May 2017
“What does cosmic far-infrared background tell us about cosmic star-formation history?” Astronomy Seminar, University of Illinois	Feb. 2017
“Cosmic far-infrared background and cosmic star-formation history” Chalk Talk, University of Chicago	Feb. 2017
“What does cosmic far-infrared background tell us about cosmic star-formation history?” Cosmology Seminar, University of Michigan	Feb. 2017
“What does cosmic far-infrared background tell us about cosmic star-formation history?” Tea Talk, Caltech	Feb. 2017
“What does cosmic far-infrared background tell us about cosmic star-formation history?” Observational Cosmology Seminar, Caltech	Dec. 2016
“A Physical Model for the Anisotropies of Cosmic Far-infrared Background” Postdoc Lunch Seminar Series, Caltech	Feb. 2016
“A Physical Model for the Anisotropies of Cosmic Far-infrared Background” KIPAC Tea Talk, Stanford University	Jan. 2016
“Cosmology from gas and stars of galaxy clusters: results from Rhapsody-G hydrodynamic simulations” Astrophysics Luncheon Seminar, Jet Propulsion Laboratory	June 2015

“Cosmology from gas and stars of galaxy clusters: results from Rhapsody-G hydrodynamical simulations” Observational Cosmology Seminar, Caltech	Oct. 2014
“Probing Dark Energy Using the Growth of Structure: the Role of Simulations” Cosmology Seminar, Case Western Reserve University	Apr. 2014
“Probing Growth of Structure Using Galaxy Dynamics: A Converging Picture of Velocity Bias” Cosmology Seminar, University of Pennsylvania	Aug. 2013
“Virial Scaling of Galaxies in Clusters: Bright to Faint is Cool to Hot” Astronomy Seminar, ETH Zurich	July 2013
“Precision Cosmology from Galaxy Clusters and Large-scale Structure: The Role of N-body Simulations” Cosmology Seminar, University Observatory Munich	July 2013
“Precision Cosmology from Galaxy Clusters and Large-scale Structure: The Role of N-body Simulations” Astrophysics Colloquium, IAA Academia Sinica, Taipei	May 2013
“N-body Simulations of Galaxy Clusters: Is Overmerging Still an Issue?” Cosmology Seminar, CCAPP, Ohio State University	Dec. 2011
“Precision Cosmology From Galaxy Cluster Surveys: Understanding the Observable-Mass Distribution” FLASH Seminar, UC Santa Cruz	Feb. 2011
“Precision Cosmology From Galaxy Cluster Surveys: Understanding the Observable-Mass Distribution” Cosmology Seminar, Yale University	Jan. 2011
“Precision Cosmology From Galaxy Cluster Surveys: Understanding the Observable-Mass Distribution” Cosmology Seminar, University of Michigan	Jan. 2011
“Precision Cosmology From Galaxy Cluster Surveys: Observational and Theoretical Challenges” KICP Friday Seminar, University of Chicago	Oct. 2010
“Precision Cosmology From Galaxy Cluster Surveys: Observational and Theoretical Challenges” Cosmology Group Seminar, UC Davis	Oct. 2010
“Precision Cosmology From Galaxy Cluster Surveys: Observational and Theoretical Challenges” Cosmology Seminar, BCCP, UC Berkeley	Sept. 2010

Conference Presentations

- “Synthetic Observations of Far-infrared/submm Galaxies” Jan. 2018
Modeling the Extragalactic Sky, Berkeley
- “Sample variance in the local measurements of H_0 ” Aug. 2017
TeVPA 2017, Columbus, Ohio
(international conference, ~ 300 participants)
- “Sample variance in the local measurements of H_0 ” July 2017
Advances in theoretical cosmology in light of data, Nordita, Stockholm
- “Where does cosmic far-infrared background come from? Interpreting the Planck and Herschel results using physical and empirical models” Jan. 2017
229th Meeting of the American Astronomical Society
- “A Physical Model for the Anisotropies of Cosmic Far-infrared Background” Aug. 2016
COSMO-16, Ann Arbor, Michigan
(International conference, ~ 300 participants)
- “Rhapsody-G simulations of galaxy clusters: the impact of AGN feedback on cool cores and X-ray scaling relations” June 2016
Computing the Universe: At the Intersection of Computer Science and Cosmology
Banff International Research Station, Oaxaca, Mexico
(Invited participation, ~ 35 participants)
- “A Physical Model for the Anisotropies of Cosmic Far-infrared Background” Mar. 2016
SnowPAC 2016: The Galaxy-Halo Connection, Utah
(International conference, ~ 150 participants)
- “A Physical Model for the Anisotropies of Cosmic Far-infrared Background” Jan. 2016
Statistical sampling and non-sampling methods in Cosmology
Berkeley Center for Cosmological Physics
(International workshop, ~ 50 participants)
- “What can we learn about star formation rate from resolved vs. unresolved dusty star-forming galaxies?” Aug. 2015
Santa Cruz Galaxy Workshop
(Nationwide workshop, ~ 100 participants)
- “Cluster mass cross-calibration: the covariance between hot gas and galaxies in clusters” Mar. 2015
SnowCLUSTER 2015, Utah
(International conference, ~ 200 participants)
- “Rhapsody-G: Covariance between gas and stars in galaxy clusters” Jan. 2015
Computing the Universe Symposium and Workshop, Berkeley
(Nationwide workshop, ~ 100 participants)

<p>“Probing growth of cosmic structure using galaxy dynamics: a converging picture of velocity bias” COSMO-14, Chicago (International conference, ~ 300 participants)</p>	Aug. 2014
<p>“Quantifying the baryon mass fraction of galaxy clusters” Future Directions in Galaxy Cluster Surveys, Paris (International conference, ~ 150 participants)</p>	June 2014
<p>“Quantifying the baryon mass fraction of galaxy clusters” Zeldovich 100, Space Research Institute, Moscow (International symposium, ~ 200 participants)</p>	June 2014
<p>“Galaxies are not necessarily test particles: characterizing galaxy velocity bias” APS Ohio-Region Section Meeting, Cincinnati</p>	Oct. 2013
<p>“Galaxies are not necessarily test particles” Cosmology After Planck Workshop, University of Michigan (Nationwide workshop, ~ 50 participants)</p>	Sept. 2013
<p>“Rhapsody: Halo profiles and subhalo properties from a statistical sample of re-simulated cluster-size halos” SnowCLUSTER 2013, Utah (International conference, ~ 200 participants)</p>	Mar. 2013
<p>“Rhapsody: Halo profiles and subhalo properties from a statistical sample of re-simulated cluster-size halos” The Mass Profiles of Galaxy Clusters, Madonna di Campiglio, Italy (International conference, ~ 200 participants)</p>	Mar. 2013
<p>“Precision Cosmology with Galaxy Clustering: Impact of Theoretical Uncertainties” Galaxy Cluster Seminar, University of Michigan</p>	Nov. 2012
<p>“The Impact of Theoretical Systematics on Cosmological Parameter Constraints from Galaxy Clustering” Workshop on Cosmic Acceleration, Carnegie Mellon University (Nationwide conference, ~ 80 participants)</p>	Aug. 2012
<p>“Rhapsody Cluster Re-simulation Project: How does formation history affect (or not affect) the properties of clusters?” Galaxy Cluster Seminar, University of Michigan</p>	July 2012
<p>“Theoretical Uncertainties in the Modeling of Galaxy Clustering” Galaxy Cluster Seminar, University of Michigan</p>	Mar. 2012
<p>“N-body Simulations of Galaxy Clusters: Why Do We Need Orphan Galaxies?” KIPAC Tea Talk, Stanford University</p>	May 2011

<p>“Cluster Observable-Mass Distribution and Halo Assembly History” Essential Cosmology for the next Generation, Puerto Vallarta, Mexico (International conference, ~150 participants)</p>	Jan. 2011
<p>“Spectroscopic Follow-ups and Improvement of Dark Energy FoM from Cluster Counts” The Dark Energy Survey Collaboration Meeting, Fermilab (International conference, ~200 participants)</p>	Oct. 2010
<p>“Measuring Halo Bias in Galaxy Cluster Surveys: What Will We Learn About Halo Assembly and Cosmology?” Santa Cruz Galaxy Formation Workshop (International conference, ~100 participants)</p>	Aug. 2010
<p>“Precision Cosmology from Future Galaxy Cluster Surveys” Galaxy Clusters as Cosmic Laboratories, MIT (International workshop, ~100 participants)</p>	Jan. 2010
<p>“Precision Cosmology from Future Galaxy Cluster Surveys” Galaxy Clusters in the Early Universe, ESO Workshop in Chile (International conference, ~200 participants)</p>	Nov. 2009
<p>“Annealing Follow-up Programs for Optical Galaxy Cluster Surveys” Santa Fe Cosmology Summer Workshop (International conference, ~150 participants)</p>	July 2009
<p>“Dark Energy Figure of Merit for DES Clusters” DES Cluster Working Group Workshop, Stanford University</p>	Mar. 2009
<p>“Dark Energy Studies with Galaxy Clusters: The Efficacy of Self-Calibration and Follow-up Observations” KIPAC Tea Talk, Stanford University</p>	Jan. 2009
<p>“Projection of Dark Energy Figure of Merit for DES Clusters: Effects of Nuisance Parameters” The Dark Energy Survey Collaboration Meeting, Ohio State University (International conference, ~200 participants)</p>	Nov. 2008
<p>“Self-Calibration: Systematics and Efficacy” Cosmology in Northern California, Stanford University</p>	Apr. 2008
<p>“Self-Calibration and Assembly Bias in Galaxy Cluster Surveys” KIPAC Tea Talk, Stanford University</p>	Sept. 2007
<p>“Self-Calibration and Assembly Bias in Galaxy Cluster Surveys” Santa Cruz Galaxy Formation Workshop (International conference, ~100 participants)</p>	Aug. 2007

Outreach

Public Outreach Presentation

Saturday Morning Physics, University of Michigan Dec. 2012
“Cosmic Rhapsody: From the Echo of Big Bang to the Orchestration of the Universe”
(an hour-long popular science talk and demonstrations to an audience of ~ 300 of the Ann Arbor Community, also broadcasted on Community Television Network and available on [YouTube](#))

Outreach Activities

Physics Challenge Week, Polytechnic School, Pasadena (Lecture and demonstration for 9th graders)	Jan. 2017
Lecture Volunteer, Stargazing & Lecture Series, Caltech	Jan. 2017
Science Literacy Night, Norma Coombs Elementary School, Pasadena (science demonstrations for K-5th grade students and their families)	Feb. 2016
Skype conference with a class of 1st graders in Knollwood Elementary Salisbury, NC (discussing the Sun, the Moon, and the Earth)	Nov. 2015
Caltech Explorers Club (developing and demonstrating the course Our Galaxy the Milky Way at the Polytechnic School in Pasadena)	Feb. 2015
Solar eclipse viewing, McKinley School in Pasadena (demonstrating and explaining concepts in the school-wide event)	Oct. 2014
Michigan Physics Olympiad, University of Michigan (annual one-day event of scientific experiments for area high schools)	May 2014
Presentation “Preparing for a Talk About Your Research” (sharing my experience of public speech in Professor Judy Dyers Oral Presentation class, English Language Institute of University of Michigan)	Feb. 2013
The Science Bus, The East Palo Alto Charter School (weekly science demonstrations for 4th and 5th graders in a low-income part of the San Francisco Bay Area)	Fall 2008
SLAC Kids Day (astrophysics demonstrations for the children of SLAC employees)	Aug. 2008
Menlo School Visit, SLAC (astrophysics demonstrations for 9th graders visiting SLAC)	May 2008

Teaching and Mentoring Experiences

Co-supervisions of Students

Mike Mills (N-body simulation, UM undergrad with Evrard)	2012-2013
Alan Coleman (data visualization, UM undergrad with Evrard)	Winter 2012
Vishaal Kalwani (data visualization, UM undergrad with Evrard)	2011-2012
Blythe Moreland (N-body simulation, UM undergrad with Wechsler)	Summer 2011
Adam Bouland (Fisher matrix, Yale undergrad with Wechsler)	Summer 2009

Teaching Assistantships in Stanford

Physics 161: Introduction to Extragalactic Astrophysics and Cosmology (physics majors)	2009, 2010, 2011
Physics 362: Advanced Extragalactic Astrophysics and Cosmology (graduate students in astrophysics)	2008, 2010
Physics 21: Mechanics (biology and pre-medical majors)	2006
Physics 43: Electricity and Magnetism (engineering majors)	2006
Physics 120: Intermediate Electricity and Magnetism (physics majors)	2006

Communication and Pedagogical Training

Language and Orientation Tutoring Program, Stanford University (semester-long tutoring on writing and oral presentation)	Summer 2010, 2011
Communication Strategies in Professional Life English for Foreign Students, Stanford University	Spring 2010
Voice and Articulation Intensive for Nonnative English Speakers Center for Teaching and Learning, Stanford University	Winter 2010
I-RITE/I-SPEAK (intensive presentation training) Center for Teaching and Learning, Stanford University	Sept. 2008
English in Action (English conversation and cultural exchange) The Bechtel International Center, Stanford University	2007-2011
Speaking and Teaching in English English for Foreign Students, Stanford University	Summer 2006
Teaching of Physics Seminar Physics Department, Stanford University	Winter 2006
